Pull the tab of your choice

Technology

Value

Performance

You get them all with IBM.

IBM® Express® Seller and Dare to Compare models make the choice easy.

Technology

The best in class.

The IBM Express Seller portfolio of servers and Dare to Compare models bring enterprise level technology to the Midmarket. IBM System x® servers are designed for high reliability and ease of use. You can trust our servers with business-critical workloads like virtualization and business applications.

Easy to deploy.

Easy to manage.

IBM System x servers are designed for tool-free maintenance. Hot swap components, full redundancy and light path diagnostics ensure a level of manageability that makes for an easy experience.

Technology

Value

Our aggressively priced Dare to Compare models can't be ignored.

All of our IBM Express and Dare to Compare models are very competitively priced. IBM's high-efficiency designs help lower your customers' power and cooling expense; these savings further validate the IT investments.

Higher flexibility. Lower prices.

A wide range of configuration options offers flexibility to ensure that the systems you sell meet your customers' specific needs.

Value

Performance

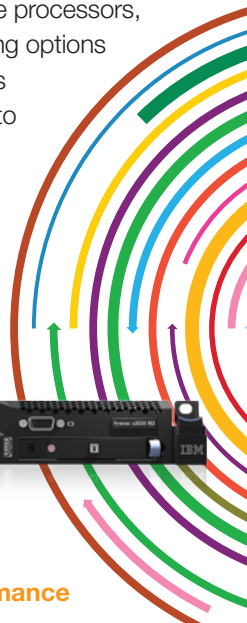

The results you want. When you want them.

The latest generation technology, along with high-performance processors, storage and networking options will maximize business performance. Thanks to immediate shipping from our Distributors, your customers will experience our high-quality performance even faster.
